About IOF

The International Osteoporosis Foundation (IOF) is the only worldwide organization dedicated to the prevention, diagnosis and treatment of osteoporosis and related musculoskeletal diseases. It is a Swiss not-for-profit Foundation acting as an umbrella organization bringing together all stakeholders; including, scientists, physicians, patient and medical societies as well as corporate partners interested in osteoporosis, osteoarthritis and bone health.

IOF has three membership committees including the Committee of National Societies representing 232 members in 98 countries or regions, the Committee of Scientific Advisors represented by 140 thought leaders from around the world and Committee of Corporate Advisors, comprised of 21 companies interested in bone health.

Vision

IOF’s vision is a world in which people of all ages benefit from good bone, muscle and joint health, free of fragility fractures due to osteoporosis.

Mission

To promote the maintenance of bone, muscle and joint health as a worldwide priority.
